## The Undersigned Project Reading Committee Approves the Project Titled

## Project Reading Committee Signatures

Committee Chair (type name) | | Department |

Signature (electronic or hand-written) | | Date |

Second Reader (type name) | | Department |

Signature (electronic or hand-written) | | Date |

Third Reader (type name) | | Department |

Signature (electronic or hand-written) | | Date |

Fourth Reader (type name) | | Department |

Signature (electronic or hand-written) | | Date |

## Requirements

Signatures from all committee members must be present when your project report is submitted to the Biomedical, Chemical & Materials Engineering Department. Electronic or hand-written signatures will be accepted as long as all signatures appear together on the same form. This form must be included with the approved Project Report.

At least one committee member must be a full time, tenured, or tenure-track BCME Department faculty member. Faculty participating in the Faculty Early Retirement Program (FERP) are considered active faculty members and, as such, can function as the committee chair. Non-faculty members must be recognized experts in the subject matter. If the committee includes an off-campus member, please specify the affiliation (e.g., Mr. Marvin King, ABC Corporation) in the "department" field.

If there are two students in the project team, please fill out both names, ID numbers, phone numbers and email addresses in the appropriate fields. If there are more than two students in the project team, please fill out an additional form.
