

Label Each Organelle in the Animal Cell & Describe Its Function

Some organelles may show up more than once as indicated by the [#]

Ribosome [2]-

Golgi Apparatus-

Cytoplasm-

Rough Endoplasmic Reticulum-

Vesicle [2]-

Intermediate Filaments-

Nuclear Pore-

Smooth Endoplasmic Reticulum-

Mitochondrion-

Nuclear Envelope-

Microtubules-

Centrioles-

Lysosome-

Flagellum-

Chromatin-

Nucleolus -

Plasma Membrane-

Nucleus-
