Please check all the statements below that are true:

\_\_\_\_\_ I have completed a year of General Chemistry with labs.

If true, when did you last take General Chemistry?

If true, where did you take Gen. Chem. and who was your instructor?

\_\_\_\_\_ I have looked at the Radlauer Group website (<https://www.sjsu.edu/radlauer/>).

\_\_\_\_\_ I have done independent research before.

If true, at what institution, who was your research advisor, and how long did you work there?

\_\_\_\_\_ I feel comfortable with my course load this coming semester (please explain below).

*(This is a starting point for our conversation about your interest in my group and our research. Please include only what you feel comfortable.)*

Why are you interested in doing research?

---

---

---

What do you think/hope you will learn from participating in research?

---

---

---

What is (are) your primary goal(s) in doing research?

---

---

---

Why are you interested in the Radlauer Research Group in particular?

---

---

---

What is your current plan for after graduation (more school? a job in a lab? a job not in a lab? etc.)?  
Note: You do not have to have a plan yet. Also, I will not hold you to this going forwards, I just want to get a sense of your interests at this point.
